 Upcoming Events

Dear Ron,

DataWing Software is proud to publish our second company newsletter. It can be a challenge getting from the first newsletter to the second and we have made to that milestone! We hope you enjoy the following stories. As always, if you would like more information or a personal demonstration of our products, please let us know.

Have a safe and happy 4th of July!

DataWing Has Hummingbirds

Here at the headquarters of DataWing Software, we have been treated to a once-in-a-lifetime real-life nature show. An Anna's Hummingbird female made a nest in the courtyard of our building, and laid the first of two eggs on May 17th. We've enjoyed close-up views of nest-building (using spider silk, lichens, plant down, etc.), the appearance of two jelly-bean-sized eggs, the hatching of the eggs, and the amazing development of the two chicks.

You can see a photographic history on our website.

In honor of Anna, we have made her the DataWing Bird of the Month for July 2009.

DataWing partners with HealthCare Information Management

DataWing Software and HealthCare Information Management (HCIM) have entered into a cooperative marketing partnership. This exciting agreement will allow HCIM and DataWing Software to work together in both marketing and software integration. In the near future, we will be working on integration projects that will significantly expand the functionality of our products. Stay tuned for more exciting news.

Eligibility Manager and Quantum Choice

DataWing Software is working closely with Plexis Healthcare Systems to integrate Eligibility Manager with Quantum Choice, their newest claims management system.

In addition, DataWing Software and Plexis have signed a partnership agreement. This will open up the power of Eligibility Manager to Plexis Quantum Choice users. Plexis customers can now realize the cost savings and accuracy improvements that existing Eligibility Manager customers have found for years. If you would like any more information, please feel free to contact us.

Nikki Kirby

Many of our DataTug clients have worked with Nikki Kirby, but who is she? Nikki is a former Personable PC Solutions employee who has returned to help DataWing Software. She earned her bachelor's degree in Healthcare Management from the University of Portland and has several years work experience in Managed Care. In 1996, as an employee at UnitedHealth Network (now Healthcare Resources NW), Nikki was instrumental in the early development of Eligibility Manager. Nikki is currently working part time out of her home in Edmonds, WA. When not working, Nikki is busy keeping up with her 2 kids. She enjoys camping, hiking and coaching her daughter's basketball team.

She is currently working on DataTug configuration and testing. She also is taking on some account management duties and may be expanding her responsibilities to other areas in the future.

DataTug expands list of Health Plans

DataTug currently run with Alameda, Anthem Blue Cross, Blue Shield of California, Care1st, Central Health Medicare Plan, Cigna, Health Net, Health Net Medi-Cal, Inland Empire Health Plan, LA Care Health Plan, California's Medi-Cal, PacifiCare, and Scan Health Plan.

If you would like any of these sites added to your DataTug licensing and configuration, please contact us.

Upcoming Events

We just returned from Western Claims Conference. We enjoyed seeing those of you who came by the booth. In our continued commitment to keep in touch with all of you, we will attend the following upcoming conferences.

- [EZ-CAP UCON 2009](#)
October 11-14, 2009
Newport Beach, CA
- [EZ-CAP Western Regional User Group](#)
Dates to be determined
Huntington Beach, CA.

We hope to see you all there!
