Dear Ron,

DataWing Software is proud to publish our Spring 2010 company newsletter. We have lots of updates to share with you! Our solutions are expanding at our client sites who are using DataWing Software. The new additions are keeping Jerry hopping; good thing he is light on his dancing feet. We hope you enjoy the following stories. As always, if you would like more information or a personal demonstration of our products, please let us know.

Happy St. Patricks Day!

SymKey® for EZ-CAP® DataWing Auto-Post™ Module Available Soon

Using SymKey's advanced automation capabilities, the DataWing Auto-Post module will seamlessly integrates with Eligibility Manager® and DataTug™ to post eligibility information updates into EZ-CAP. Automatic posting features include entry of member notes and four undo events, including "Un-Do Last Termination," "Un-Do Last Re-Enrollment," "Un-Do Last Option Transfer," and "Un-Do Last PCP Transfer." The module is expected to be available in the 2nd quarter of 2010. Call 1-866-504-3007 for more information about the SymKey for EZ-CAP DataWing Auto-Post module.

DataWing's New Office

DataWing has moved to the heart of the Hollywood District, on the corner of NE 42nd and NE Sandy. Originally Hollywood, after the Scottish Holyrood, this area was named after the Hollywood Theater which opened July 17th, 1926.

Back in the 1930s, you could gaze eastward from downtown

Welcome Tuality Health Alliance, a new Cap Check™ Customer

Tuality Health Alliance is in the final implementation phase of Cap Check™ for Plexis Quantum Choice; expecting to go live in March 2010.

This implementation expands the technology integrations of Cap Check™ to another Claims Processing System, adding Plexis to the growing number of technology partners for DataWing Software. The Tuality Health Alliance implementation is using the Cap Check™ compatibility for Ansi X12, taking the 820 files received from their health plans and providing the reconciliation of Capitation payments with their eligibility data in their Plexis Quantum Choice.

Portland and spot the huge, flickering sign all the way out on Northeast Sandy Blvd.

DataWing's new office is just east of the theater with a full view of the Hollywood sign.

Our restored building was home to Kelley Furniture, has housed a JC Penny Store, piano store, restaurants and has been part of the long history here. See our windows behind the theater in the picture above.

Employee Spotlight: Regina Shapiro

DataWing Software is proud to introduce our newest employee, Regina Shapiro. Regina brings extensive experience connecting companies to solutions in the software industry. Her technical expertise has focused in the ITSM, SDLC, configuration, and process improvement areas for organizations PMO's and software developers. She's a quick learner, and her creativity and enthusiasm are already having an effect...and keeping us on our toes. And if that wasn't enough, Regina has an Appaloosa horse ranch! Please join us in welcoming Regina to our community.

UPDATE: DataTug Version 1.3 Released

DataTug Improvements included in this version:

- No need for Microsoft SOAP Toolkit!
- Help Files Added
- Menu option to request config updates
- One click viewing of input or result Excel files.
- Correction of problems receiving results in some XML files and some issues relating to input files submitted without a SubjectID on some health plans.
- Support for Inter Valley Health Plan (IVHP) and adjustments to Care1st and Molina.

You can download the install package from the [DataWing Software Website](#). Simply select "DT Client Area" from the "Support" menu. If you have any questions, please call us. We are working on some potentially exciting upgrades for our next release. Stay tuned!

Eligibility Manager Expands Its Reach

In our last newsletter, we told you about our partnership with Plexis Healthcare Systems to integrate Eligibility Manager with Quantum Choice. That implementation has been a great team effort between our mutual client Pacific Partners Management Services, Inc. of Foster City, CA, Plexis, and DataWing.

We haven't stopped there. Our long-time client Managed Care Systems in Bakersfield, CA was selected by a local 17,000 member employer as their Third Party Administrator to manage EPO and POS healthcare. MCS had a short time-frame to integrate the eligibility data in X12 834 format with their new claims management system. DataWing worked closely with MCS to integrate Eligibility Manager to provide seamless eligibility

updates. According to Wes Rogers, Network Administrator at MCS, "DataWing's response to our needs during the implementation process was superb."

But wait, there's more! Nautilus Healthcare Management Services is an MSO in Newport Beach, CA who manages Greater Newport Physicians IPA. Nautilus was unhappy with their existing tools for reconciling eligibility with their MC400 system. They wanted something easier to use and cheaper to modify, and needed it in a hurry to manage a new IPA client they had just acquired. We were able to get them running with nine plans in their short time frame, including implementation of a variety of custom processes.

And we're still moving! We recently signed Affinity Medical Solutions of Redmond, CA as our newest client for both Eligibility Manager and Cap Check. We're implementing both applications to reconcile eligibility and cap payments for seven health plans with their IKA Systems database. Their time frame is a little over a month, so no time to write...back to work!

Upcoming Events

We are getting ready for the EZ-CAP Western Regional User Group Meeting later this month in Huntington Beach, CA. We are looking forward to seeing you at the booth or our must see critically acclaimed Oscar nominated "Day in the Life" presentation. This newsletter also contains answers for the WRUG Vendor Information contest. In our continued commitment to keep in touch with all of you, we plan to attend the following upcoming conferences.

- [Western Claims Conference 2010](#)
June 27-29, 2010
Indian Wells, CA
- [2010 Plexis User Conference](#)
September 12-15 in Ashland, Oregon
- [EZ-CAP UCON 2010](#)
Dates and location to be announced

We hope to see you all there!
